of the 737-800NG, it is the preferred aircraft for low cost carriers (LCCs) such as Ryanair. This tutorial will be flown with real world weather so adjustments with regards to runway selections may be required. However, the topic of weather will be discussed in an upcoming information document – which will not be specific to any add-on.

This is a PDF tutorial intended for use with PMDG's Boeing 737NGX product. Instructions within are specific to the PMDG product, but you may be able to use it with other 737NG-type add-on airplanes. The intended audience ranges from those that are completely new to Boeing-type add-ons in FSX, to those who know how to get in the air and land, but would like a more solid understanding of the airplane and its systems.
