## ~~Powermate | Manuals~~

The Coleman Powermate 1850 is a small, portable generator used for camping, in camper trailers or as a backup for home safety.

These units are powered by gas and have various attachments to charge and power electric devices.

Because these units are small, they pack away into the generator housings on motor homes and camping trailers.

# Acces PDF Coleman Powermate 1850 Generator

~~Manual~~ Earlier 1850 generators used a 27kohm resistor in parallel with the diodes. Mine uses a zinc oxide varistor instead. It will be replaced with a Littelfuse V510LA40AP. The varistors and diodes can be removed from the rotor while it remains in the generator.
