Rising star author-illustrator Ethan M. Aldridge delivers a fantasy adventure with all the makings of a classic. Illustrated with over two-hundred pages of watercolor paintings, this epic graphic novel is perfect for fans of Amulet. Edmund and the Childe were swapped at birth. Now Edmund lives in secret as a changeling in the World Above, his fae powers hidden from his unsuspecting parents and his older sister, Alexis. The Childe lives among the fae in the World Below, where being a human makes him a curiosity at the royal palace. But when the cruel sorceress Hawthorne seizes the throne, the Childe and Edmund must

unite on a dangerous quest to save both worlds—even if they're not sure which world they belong to. "A splendid tale of faery magic and adventurous siblings, all told in gorgeously rendered watercolor panels: this is exactly my kind of thing." —Ben Hatke, author and illustrator of the New York Times bestselling Zita the Spacegirl trilogy "It's got dragons. It's got drama. It's got depth. And it's got me impatiently awaiting Ethan M. Aldridge's next eye-popping adventure." —Tim Federle, award-winning author of Better Nate Than Ever and Five, Six, Seven, Nate! "A compelling story about finding identity in a world where magic dangers lurk just around the corner. I loved Estranged!" —Molly Ostertag, author-illustrator of The Witch Boy

Corrosion is a naturally occurring cost, worth billions in the oil and gas sector. New regulations, stiffer penalties for non-compliance and aging assets are all leading companies to develop new technology, procedures and bigger budgets catering to one prevailing method of prevention, cathodic protection. Cathodic Corrosion Protection Systems: A Guide for Oil and Gas Industries trains on all the necessary reports, inspection criteria, corrective measures and critical standards needed on various oil and gas equipment, structures, tanks, and pipelines. Demands in the cathodic protection market have driven development for better devices and methods, helping to prolong the equipment and pipeline's life and integrity. Going beyond just looking for leaks, this handbook gives the engineer and manager all the necessary tools needed to put together a safe cathodic protection system, whether it is for buried casing while drilling, offshore structures or submarine pipelines. Understand how to install, inspect and engage the right cathodic protection systems for various oil and gas equipment, tanks, and pipelines Properly construct the right procedure and anodes with all relevant US and International standards that apply Gain knowledge concerning techniques, equipment, measurements and test methods used in real-world field scenarios

'This is a book about a well-known writer, Lewis Carroll, and about a little-known subject, the theory of voting' (from the Editors' Introduction). This book has been edited from the manuscripts of the late Scottish economist Duncan Black. Shortly after the publication of The Theory of Committees and Elections Black started to collect material for papers and a book on Lewis Carroll's theory of proportional representation. Black's chapter plans made it clear that the book was to be in three parts, written by himself, followed by a reprint of Carroll's Principles of Parliamentary Representation and its main sources. Part I is biographical, introducing Lewis Carroll and giving relevant details of his life. Part II is Black's already published work on Lewis Carroll. Part III comprises the more detailed arguments about Carroll's reasoning, and Part IV contains reprints of rare original material on proportional representation by Carroll, James Garth Marshall, and Walter Baily. Taken together, the editors have provided a complete reference source for the theory of voting and proportional representation.

Design of Solar Thermal Power Plants introduces the basic design methods of solar thermal power plants for technicians engaged in solar thermal power generation engineering. This book includes the author's theoretical investigation and study findings in solar heat concentrators, a performance evaluation of solar thermal collectors, a numerical simulation of the heat transfer process between complex geometrics, heat transfer through radiation, and more. Containing theoretical descriptions of solar concentrators and receivers, practical engineering examples, and detailed descriptions of site selections for solar thermal power plants, this book has a strong theoretical and practical value for readers. Contains practical guidance and applications, making it more useful and user-friendly for CSP engineers Includes theoretical investigation in solar heat concentrators, performance evaluation of solar thermal collectors, and the numerical simulation of heat transfer between complex geometrics with practical applications

This isn't a love story. This is a story of all the reasons we can't be together. Reason number one: we lie. Liesel Dunn has a secret. One I literally ripped from her hands when we were kids. Her secret was in a letter that I tore in half. I have half the secret. She has the other half. We've always refused to share our part of the truth, so we've lived separate lives. Until fate brings us back together. She needs a hitman. I answer her call. I'll do her this favor. But she'll owe me a debt. And I plan on collecting... This collection includes: Vicious Lies, Desperate Lies, and Fated Lies. Series Order: Taken Stolen Sinful Broken Vicious Endless What Readers Are Saying... "OMG Ella! This book... and that ending... I seriously stared at my iPad for about 10 minutes after I finished, re-read the last few pages and then stared longer. I thought you dropped some bombs in your previous two series, but hot damn this one took the cake! I am officially obsessed with Langston and Liesel and I can't wait to get more of their story!" "AMAZING ! Talk about edge of your seat suspenseful, non put down able, emotional and gut wrenching book. WOW just WOW ! So much torment and torture that just breaks your heart. Man and to have to wait for more...what a cliffhanger." "I just finished and oh my!!!!!! I'm crying, mad, happy. I root for each one I root for them to be together I root for them to kill each other oh my gosh. I need more !!!!!" Topics: dark romance, romantic suspense, romantic suspense series, dark romance series, romance, romance series, contemporary, contemporary romance, hot romance, steamy romance, free book, free, second chance, new adult, mafia romance, billionaire romance, bestselling series, romance novel, Ella Miles book, survival romance, alpha, series starter, free series starter, strong heroine, first in series, USA Today Bestselling Author, action romance, action and adventure, suspense, mystery, hot new romance, seduction, seduction romance, sexy. Similar Authors: Charlotte Byrd, Penelope Sky, Victoria Quinn, Roxy Sloane, Meghan March, Helen Hardt, Skye Warren, Lexy Timms
