It is true that the largest employers of forensic scientists in this country are police and agencies whose major workload is carrying out investigations of criminal activity. However, forensic science is also a science that aids the legal system, including the civil courts and public inquiries. The use of forensic science even extends to matters that do not go to court, such as the investigation of fires and accidents on behalf of insurance companies.

~~Forensic science: The science of crime Student Times~~

Forensic Science: From the Crime Scene to the Crime Lab presents forensic science in a straightforward, student-friendly format that's ideal for students with limited backgrounds in the sciences. Topics are arranged to integrate scientific methodology with actual forensic applications, and discussions are focused on explaining state-of-the-art technology without delving into extraneous theories that may bore or overwhelm non-science students.
