The key to life? A question many of us ask ourselves on a daily basis. Why am I here? Why did I do that? What makes me different from the rest? The world we live in today is a different world from yesterday. In my opinion, majority of people are being brought up believing in violence, war, suicide, crime, abuse, bullying, Alcohol & Drugs but most of all people seem to believe in money. To which all prove a negative effect on our lives. You could believe Alcohol & Drugs are the Devil of our time, spreading like the plague wiping out humanity, mentally and physically. Disability rates are rising fast throughout the world constantly. The NHS are over run with mentally ill depressed people, as are the drug & alcohol services and nobody seems to have an answer, so we carry on running around in circles chasing our tails like dogs made to accept our fate of diagnosis be it mentally ill or addicted. The highest killer of men today under the age of 45 is suicide, which gives me the reason to believe unless we do something about it, we are a dying breed. Growing within the human race due to negligence to others, negativity toward our own flesh & blood. Cancers now leaving us & our children with a roundabout whopping fifty percent chance of being diagnosed. That's before we smoke, drink or take drugs. As we grow older some of us begin ask ourselves, where have our lives gone? Most uneducated people only seem to believe that Jesus was nailed to the cross, this day in age,

nobody wants to learn how or why? Because unfortunately this day in age Jesus didn't sniff cocaine, to which I'd imagine he's probably pleased about, as he had a bad enough time as it was. Should you choose to believe in yourself & the power of life itself, the power of love. You will not be lead astray. Together we will change the entire world for ourselves, and our children thinking twice about the future. I will tell you the story of my own upbringing through to this very day, the good times and the bad. School, careers, major addictions, depression, suicide attempts, negativity from others, positivity from the other side, my passion for music, how life affected me and how I got through it. What if this Book reaches out to everybody in some way shape or form? Giving my overall opinion on mental illness, addiction, relationship problems, and many other healing capabilities including my own personal view on cancer. But most of all an opinion to happiness in life!

Thirty years after its publication, *The Death and Life of Great American Cities* was described by *The New York Times* as "perhaps the most influential single work in the history of town planning....[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the biting satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.
