Healthy development means that children of all abilities, including those with special health care needs, are able to grow up where their social, emotional and educational needs are met. Having a safe and loving home and spending time with family-playing, singing, reading, and talking-are very important.

Child Development Basics | CDC

Since growth and development are two words in the English language that can be used with some difference although they appear to have the same connotation, it is useful to know the difference between growth and development so that they can be used correctly in the right context. Growth is a process of becoming larger or longer or more numerous or more important, mostly a physical change; development is a process in which something transforms (mostly positive) into a different stage or ...
