Hey there! Welcome to Preschool Plan It! I'm Cheryl, a preschool teacher of over 20 years. I KNOW, I know, you spend hours of time developing your preschool themes, activities and preschool lesson plans each week. You are committed to planning preschool themes and activities that are engaging hands-on, interactive, fun AND meet the goal of supporting each child's level of growth and development.

This book is a guide to assist any teacher who dreads writing those school reports every year! How frustrating is it searching for that 'appropriate' word or phrase to describe your students' achievements? This guide will help you to overcome those annoying mental blocks when writing your school reports. It will help you write crystal clear teacher comments for any grade from pre-school to high school. The words, phrases, and samples of comments can also be useful for parent-teacher conferences, marking and correcting children's work, or writing referrals for students. Counselors will find it useful for taking notes and keeping records of students. There are sample comments on children's social and emotional development. ESL teachers and language teachers will also find it a useful companion to finding the right word to express their students' progress. There are words and phrases specifically for 'Listening', 'Speaking', 'Reading', and 'Writing'. There are also words and phrases to help teachers in various subject areas, such as drama, music, sport, and art. The keywords and phrases help you say the difficult things nicely. The words and phrases under each subject have been divided into two general groups, 'Experts' and 'Apprentices'. The 'Experts' are those coping very well in that subject area and the 'Apprentices' are students who find that subject a real challenge. It's always important to try and be positive as we can in report writing and offer encouragement to students even if they are struggling. For general comments, examples have been included to help you. These are organized under three headings: 'Gold' - for the child who simply shines in all areas; 'Silver' - for the child who copes satisfactorily in class; and 'Bronze' - for the child who is struggling and finds learning a real challenge. There's also a page titled, '100 ways to say, very good', as all teachers know that by the tenth report it is a brain drain to avoid repeating ourselves! Saying the difficult things nicely can often be achieved by writing something positive first, followed by a more direct comment, or vice versa. It's about balancing the good with the challenging. Providing an alternative to negative comments leaves more room for hope for students to succeed. Many people love teaching and working with students. However, often report writing can be a challenging and demanding part of the job. This book will be of assistance, even a springboard for your thoughts when once again it is report writing time.

Supporting Teaching and Learning in Schools is an accessible, user-friendly handbook designed to provide practical guidance and ideas to support Higher Level Teaching Assistants (HLTAs). It covers the knowledge and skills needed by HLTAs to work effectively with pupils, teachers, parents and other professionals concerned with the well-being of children. The book relates directly to the standards for HLTAs but also provides a deeper grounding in pedagogy and the role of the teacher and the HLTA in creating productive learning environments. The text is illuminated with examples of existing good practice, and a range of tried-and-tested strategies to help HLTAs develop in all aspects of their work. It provides essential background knowledge, together with a range of activities designed to support learning, examining: the roles of the HLTA and teacher respectively, and interactively classroom management and interactions with pupils pupil differences the place of the HLTA within the school community professional development. The book can be used alongside the popular Routledge Learning to Teach in the Secondary School series, which gives detailed examples of theory and practice about teaching and learning for trainee teachers. It is an invaluable resource for current and prospective HLTAs working across a wide range of subjects

Learning and teaching is an integrated process, and theory and practice cannot be separated. As in the previous Australasian edition, Educational Psychology 3e continues to emphasise the educational implications and applications of child development, cognitive science, learning and teaching. Recurring themes throughout the text include ideas about education; social and socio-cultural aspects of education; schools, families and community; development, learning and curriculum; and effective teaching. Author Kay Margetts incorporates Australasian perspectives and applications using the work of Australasian researchers and teachers. Numerous examples, case studies, guidelines and practical tips from experienced teachers are used in the text to explore the connections between knowledge, understanding and practice.

In this new edition of their groundbreaking book Strategies That Work, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading, strategies for integrating comprehension and technology, and comprehension across the curriculum. The new edition is organized around three sections: Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice, suggestions for text selection, and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular "Great Books for Teaching Content," are accessible online. Since the first publication of Strategies That Work, more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. This third edition is a must-have resource for a generation of new teachers--and a welcome refresher for those with dog-eared copies of this timeless guide to teaching comprehension.

Timesavers for Teachers, Book 2: Report Card and IEP Comments, Substitute Teacher Instructions Kit, and Classroom Awards and Passes combines three great resources into one that will help all teachers simplify their work, personal organization, record keeping, and classroom management, including: Over 1800 ready-to-use and easy-to-find report card and IEP comments for any situation A complete substitute teacher instructions kit, with all the forms your substitute might need to keep the class running smoothly A comprehensive set of attractive classroom awards and useful passes Designed with flexibility in mind, the forms come in several versions and can be used in a variety of settings and situations.
