Public Sector and Infrastructure Insight — PwC

Cyber security is needed that follows a "CCC" framework — comprehensive in nature, collaborative by intention, and capability-driven. Middle East governments can apply the CCC framework in their own national cyber-security programs. First, they should establish a centralized national cyber-security body, with a clearly defined mandate.

Cyber security in the Middle East-A strateg

The public sector is a complex sphere of activity. Urgent, daily business is sometimes diametrically opposed to long-term plans. Furthermore, the sector continuously has to seek a balance between the personal interests of the individual citizen and the common social good. Our Public Sector Group supports you in all fields in this challenging environment, at local, national and international level.

In essence, bureaucratic public-sector institutions lack the speed and nimbleness to keep pace in a rapidly changing world. The challenges—increasing volatility, uncertainty, complexity, and ambiguity—are universally apparent. They have even spawned an increasingly well-known acronym: VUCA. Similar changes are roiling the business world.
