For Student Success and Career Development, or Critical Thinking courses. This book is designed to help readers develop specific and powerful critical thinking skills, abilities and traits in order to improve the quality of their thinking in every part of their lives. The book focuses on helping readers take thinking apart, both their own thinking and the thinking of others, and then assess and transform it. This edition adds chapters on fallacies in thinking, as well as on media bias and propaganda."

In a world of shallow values, instant gratification, and quick fixes, this book is for those readers who see the benefit of intellectual traits, standards, and abilities that will enable them to cut through the propaganda, the information blitz, and make sense of the world. In this anthology of his major papers, Richard Paul explains how to help students become intellectually fit, how to build the intellectual muscle to overcome inherent self-deceptive tendencies and rise to the challenges of a rapidly changing world.

Examines the theoretical, philosophical, educational & practical aspects. Special emphasis on education.

This introduction to critical thinking focuses on an integrated, universal concept of critical thinking that is both substantive and practical. It provides students with the basic intellectual skills they need to think through content in any class, subject, or discipline, and through any problems or issues they face. Now available from Rowman & Littlefield, Richard Paul and Linda Elder's *Critical Thinking: Learn the Tools the Best Thinkers Use* focuses on the most basic critical thinking concepts. It includes activities that allow readers to apply these concepts within disciplines and to life. An added feature to this brief book is a focus on close reading and substantive writing. Content highlights include: Think for Yourself activities Discovering the parts of thinking and the standards for thinking Learning to formulate clear and substantive questions Making the design of a course work for you Close reading and substantive writing Becoming a fairminded thinker

This critical thinking guide introduces concepts and strategies for developing essential reasoning skills and intellectual character. As part of the Thinker ' s Guide Library, this book is an essential resource for students learning new academic disciplines and encountering new situations in life.

This volume of the Thinker ' s Guide Library applies critical thinking concepts to the unique requirements of engineering. Students and professionals across the field of engineering will find their analytical abilities enhanced by the engaging authoritative framework of inquiry set forth by Richard Paul and Linda Elder.

Critical Thinking, 2nd Edition is about becoming a better thinker in every aspect of your life—as a professional, as a consumer, citizen, friend, or parent. Richard Paul and Linda Elder identify the core skills of effective thinking, then help you analyze your own thought processes so you can systematically identify and overcome your weaknesses.

As part of the Thinker ' s Guide Library, this book explores how to analyze questions, problems, and opportunities through the elements of reasoning. It provides students, educators and professionals a framework for deconstructing and assessing any issue to find the most practical solution, in order to achieve the best consequences.
