These selected paragraphs distill the contents and give you a quick look inside: No matter what the ruling motive may have been in each case, whether, as in Livingstone, to introduce Christianity; or, in Baker, to put a stop to the slave trade; or, in Stanley, to unlock the mystery of ages, still the tendency has been the same: to bring Africa into the family of continents instead of being the earth's pariah; to throw light on this black spot of our planet, and make those who inhabit it practically and morally, what they are really, a portion of the human race. ...Whether the military authorities were afraid of this sudden conversion or not daring to give too much freedom of action to one who showed by his whole bearing and language, that there was no undertaking too daring for him to attempt, we are not told, but they put him where he would probably have little chance to show what stuff he was made of, and he was placed on the iron-clad ship Ticonderoga. ...Bennett knew he had resources within himself-nerves that never flinch, courage that no amount of danger could daunt, a will that neither an African fever nor a wasted form could break down, and a resolution of purpose that the presence of death itself could not shake, while, to complete all, he had a quickness and accuracy of judgment in a perilous crisis, followed by equally quick and right action, which would extricate him out of difficulties that would overwhelm men who had all his courage, will and energy, but were slower in coming to a decision. ...Bennett, when he had once made up his mind, was not easily drawn aside from his purpose, I yet thought, seeing it was such a gigantic scheme, that he had not quite considered in his own mind the pros and the cons of the case, I said: I have heard that, should your father die, you would sell the Herald, and retire from business. ...There is nothing in them that illustrates the peculiar characteristics of Stanley more than, or even so much as, his subsequent acts, hence his brief summary of this tour, that seems to have had no definite object whatever, except to give the correspondent of the Herald something to do, until the proper moment to start on the expedition for Livingstone, is, perhaps, the best account that could be given, so far as the general reader is concerned.

Excerpt from Stanley's Adventures in the Wilds of Africa: A Full Account of the Two Famous Expeditions of Henry M. Stanley, the Fearless and Peerless Explorer of the Dark Continent For centuries Africa has been the dark continent of our globe. The sea-washed edges of this immense tract have been known time immemorial. Egypt, at its northeastern corner, is the oldest of the governments of the earth; while the nations Skirting the Red and the Mediterranean seas were actors in the earliest recorded history. But Africa as a whole has been an unknown land. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
