The Children of Raquette Lake: One Summer That Helped Change the Course of Treatment for Autism is an inspiring account of author Mira Rothenberg's experience with eleven autistic and schizophrenic children during the summer of 1958. In order to avoid the regression that often occurred during the summer months, Rothenberg, a trained psychologist, and her colleagues Zev Spanier and Tev Goldsman, decided to bring their young patients to a camp in Raquette Lake, located in the Adirondack region of Northern New York. As Rothenberg explains, this was a time when severely disturbed children were considered untreatable and often sent to live out their lives in institutions where their needs were neglected and ignored. Many of Rothenberg's patients exhibited signs of abuse and emotional trauma. On the island, Rothenberg, Spanier, and Goldsman discovered that by applying what was then an unconventional treatment of loving care and tolerance, their young patients improved and were able to heal many of the emotional and physical issues associated with their conditions. Written like a narrative journal that follows the children's progress from week to week, The Children of Raquette Lake is interwoven with personal histories and fascinating case stories that demonstrate the healing power of the human heart. The book also provides a valuable list of resources for therapists and parents of autistic children.

1958. In order to avoid the regression that often occurred during the summer months, Rothenberg, a trained psychologist, and her colleagues Zev Spanier and Tev Goldsman, decided to bring their young patients to a camp in Raquette Lake, located in the Adirondack region of Northern New York. As Rothenberg explains, this was a time when severely disturbed children were considered untreatable and often sent to live out their lives in institutions where their needs were neglected and ignored. On the island, Rothenberg, Spanier, and Goldsman discovered that by applying what was then an unconventional treatment of loving care and tolerance, their young patients improved and were able to heal many of the emotional and physical issues associated with their conditions. Written like a narrative journal that follows the children's progress from week to week, *The Children of Raquette Lake* is interwoven with personal histories and fascinating case stories that demonstrate the healing power of the human heart. The book also provides a valuable list of resources for therapists and parents of autistic children. From the Trade Paperback edition.

Mira Rothenberg pioneered both the clinical distinction and treatment protocol for autistic and severely disturbed children as separate from those for the mentally retarded. Winner of a Woman of the Year award from the New York City Chamber of Commerce and the National Organization for Mentally Ill Children, she eloquently recounts a lifetime of taking on seemingly hopeless cases and bringing these

children, through painstaking therapy and love, back into the world. Unflinchingly honest, whether dealing with the raw pain of her patients' lives or with Rothenberg's own complex feelings for them, *Children with Emerald Eyes* explores the landscape of mental illness while never losing sight of the humanity within each patient.

*Around Raquette Lake* illustrates the intriguing history of a lake region in the heart of the Adirondacks: Raquette Lake, the village of the same name, and the surrounding countryside. Hard to access in the early years, the area became home to famed Adirondack guides. After the late 1800s, it entered its heyday: the great camp era. People with names like Vanderbilt, Morgan, Carnegie, and Collier arrived and invited equally famous guests, including Benjamin Harrison, Ulysses S. Grant, Alexander Graham Bell, Henry Ford, Thomas Edison, and Harvey Firestone. Today Raquette Lake continues to attract visitors, many of whom return year after year and some of whom decided to make it their home.

For over a century children have spent their summers at "sleepaway" camps in the Adirondacks. These camps inspired vivid memories and created an enduring legacy that has come to be a uniquely American tradition. In "A Paradise for Boys and Girls": *Children's Camps in the Adirondacks*, a complement to the Adirondack museum exhibit of the same name, the authors explore the history of Adirondack children's camps, their influence on the lives of the campers, and their impact on

the communities in which they exist. Drawing on the rich documentary and pictorial evidence gathered from the histories of 331 camps located in the Adirondacks from 1886 to the present, this collection chronicles the changing attitudes about children and childhood. Historian Leslie Paris details social change in "Pink Music: Continuity and Change at Early Adirondack Summer Camps." In the title essay of the book, Hallie Bond offers a history of Adirondack camping from the establishment of Camp Dudley on Lake Champlain in 1892 to the present. Finally, historian Joan Jacobs Brumberg concludes the collection with "A Wiser and Safer Place: The Meaning of Camping During World War II." Lavishly illustrated with historic photographs, the book includes a directory of Adirondack camps, with brief descriptive notes for each of the camps. The photographs and essays in this volume offer readers a richer understanding of this singular region and its powerful connection to childhood.

Often shrouded in an eerie mist, the Adirondack Mountains are a perfect backdrop to the mysterious and the haunted. Troubled spirits of former patients roam the campus of the historic Dr. Trudeau Tuberculosis Sanatorium just outside Sarnac Lake. The ghost of Grace Brown, tragically murdered by her lover in 1906, drifts

over the waters of Big Moose Lake. A long-deceased runaway slave remains a guest at the Stagecoach Inn in Lake Placid. The Sagamore Resort on an island in Lake George has been welcoming vacationers since 1883, and many have never left. Held captive in a remote mansion by her husband until her death, Mary Rhinelander still wanders the burned-out ruins of her earthly confinement. Writer and paranormal investigator Dennis Webster highlights the scariest haunts the Adirondacks can offer.

Most of the people in Indian Point Bay know better than to disturb the spirits on All Hallows' Eve'. It's eighteen-year-old Will Durant's first time away from home and on his own. He's rented a place on Raquette Lake, and he's looking forward to spending his favorite holiday canoeing and enjoying the beauty of autumn. But something is amiss in this place, where Halloween candy is not for sale and children are less than eager to trick-or-treat. The townspeople say that ten years ago, someone had the bad idea of taking a walk through the ancient cemetery'.

Katherine came home to forget her past. The last thing she expected was to find her future. Young widow Katherine Osborne returns to her family's rustic camp on Raquette Lake in the Adirondack Mountains. She's determined to live a quiet life, but her socialite mother is equally determined to push her into a new marriage while she's still young. Andrew Townsend has known Katherine since they were children. An attorney who is successful, but not wealthy, he knows she is socially

out of his reach. But he's curious about what changed the free-spirited girl he once knew into this private, somber young woman. Katherine has kept hidden the details of her unsuccessful marriage. When past sins come to light, she must turn to God for the courage to be honest. But how can she trust the God she feels has let her down? When she confides in Andrew, their relationship takes a dramatic turn into uncharted territory. Amid impossible obstacles, two young people must learn to trust enough to walk the path that God has cleared for them. A path that leads to healing and restoration. A path toward love.
